Westshore water system upgrade

Over the next few months some customers of the [Westshore Estates water system](#) will notice crews working on infrastructure upgrades to the Northern View Pressure Reducing Valve (PRV) near Westshore Road and Northern View Drive.

The project includes the replacement of the existing PRV and associated water main. Residents in the area may experience some minor pressure fluctuations, noise and dust inconveniences during the construction planned for week days between 7 a.m. and 5 p.m. Motorists and traffic in the area will not be impacted.

This project is being funded by reserves for the Westshore water system.

As part of the project, a service interruption to the impacted properties in the area will be required. Once this is scheduled we'll provide details in advance to residents in the area. No other Westshore Estates water customers will be affected by this work.

For information please contact RDCO Environmental Services at engineer@rdco.com or 250-469-6241.

To subscribe online for Regional District water quality advisories or alerts by email visit rdco.com/water.

The Regional District currently operates and maintains six water systems servicing more than 1,000 properties in the Sunset Ranch, Killiney Beach, Westshore Estates, Upper Fintry-Shalal Road-Valley of the Sun, Falcon Ridge, and Trepanier areas.
